STAGE: Feasibility

STATUS: Considerable design has been accomplished under the Advanced Measures Program but it will have to be updated and modified to meet the standards of Section 205 Flood Control Design. The expenditures have reached the first \$100,000 that can be Federally funded without cost sharing. A Project Management Plan (PMP) and a Feasibility Cost Share Agreement (FCSA) were roughed out, and a detailed estimate of costs to finish Feasibility and Plans & Spec were taken to the non-Federal Sponsor on May 11, 2004. Sponsor and the Corps executed a FCSA on 28 August 2005. FY06 carryover funds and FY07 funds and non-Federal funds will be used to complete Feasibility.
